Software Engineer II | Intermediate Full Stack Engineer

Full Stack Developer with over 5 years of experience building and maintaining end-to-end web applications, in a fast-paced SaaS environment, delivering scalable and user-focused solutions.

WORK EXPERIENCE

7shifts

Software Engineer II • Saskatoon (Remote) • Full-time

Sep 2021 - Dec 2024

- Responsible for planning, building, and iterating features in the application. Collaborated with marketing and implemented experiments to drive metrics.
- Successfully led a department-wide project for my team to remove old technology from our codebase, requiring me to audit our domain, plan the project, and collaborate across teams.
- Built an internal tool experimenting with AI, which was then implemented as a new feature in the app to assist with onboarding customers and increasing conversion rates.

Software Engineer I

Jan 2020 - Sep 2021

- Promoted for demonstrated technical growth and initiative; took ownership of small-to-mid-sized projects including complete front-end rewrites
- Regularly delivered clean, scalable, and reusable code while maintaining an awareness of project scope and timelines
- Acted as a mentor to new team members and junior developers, sharing knowledge on best practices and code structure

Junior Software Engineer

Jun 2019 - Jan 2020

- Rapidly learned company systems and development practices while supporting senior engineers on active feature development and bug resolution
- Gained foundational experience in full stack development within a collaborative, agile environment
- Participated in code reviews, offering constructive feedback on architecture, performance, and testability

SKILLS

Technologies: React, Vue, Javascript, Typescript, SCSS, REST, GraphQL, PHP, Laravel, MySql, Elixir, Git

Methodologies: Agile development, Domain Driven Design, Object-oriented design & development, Test Driven Development

Fundamentals: Candid communicator, self-motivated, team player, exceptionally curious

PROJECTS

Spencer Krips Music

spencerkripsmusic.com

A website portfolio for musician Spencer Krips built using Vue.js, Vuetify and Vue Router. It showcases a portfolio of his works and events, and offers his music and merchandise for sale.

Creative Reyne

creativereyne.ca

A website portfolio for graphic designer Creative Reyne built using Vue.js, Vue Router, Vuetify, and Vuex. In collaboration with Creative Reyne themselves, we were able to encapsulate their talents and style while showcasing their services.

VOLUNTEERING

Canada Learning Code

Jan 2017 - Jan 2020

Mentor, Facilitator, & Chapter Coordinator

EDUCATION

Saskatchewan Polytechnic • Computer Systems Technology Diploma

May 2019
